What Makes Us Different?

Premium Calgary Domains With Shared Success
We provide exclusive, industry-specific Calgary domains and because we own them, we're invested in making them perform. When your business succeeds, the domain grows in value. We win together.

Ex: CalgaryMechanics.com, CalgaryDrywallers.com, CalgaryLandscapers.com

A Professional Website at a Fraction of the Cost
Most agencies charge thousands. We build your site affordably because the domain already carries value, and it's in our best interest to make it work for you.

A Connected Calgary Network, not a Standalone Site
Your business becomes part of the growing CityOfCalgary.com network. Each site we build supports the others through relevant backlinks and shared local authority.

Exclusivity in Your Industry
We only work with one business per niche. When you join, your direct competitors are off the table.

A System That Gets Stronger Over Time
Every new Calgary website we launch helps strengthen the entire network and your business benefits from the momentum.

Proof of Concept: CalgaryMechanics.com

We built CalgaryMechanics.com, a premium industry domain paired with a fully managed website and CityOfCalgary.com listing.

What We Delivered

- A professional website built on a high-authority Calgary domain
- A featured listing on CityOfCalgary.com
- Supporting blog content for SEO
- Hosting, technical setup, and ongoing management

Why It Works

Premium Calgary domains help businesses appear more credible, rank locally, and stand out from competitors — even before advertising begins.

See It In Action
